## Contents

### Editorials

- 123** Children are our future: challenges influencing the future of nursing care of CYP
- 125** Building an NHS that truly supports people living with long COVID and ME: government action needed now

### Commentaries

#### Adult nursing

- 127** Strategies and barriers of illness control after hospital readmission: perspectives of patients with chronic heart failure
- 128** Cuff size and shape for oscillometric BP measurement: a challenge for the clinician and the manufacturer
- 129** Digital health systems may not fully incorporate the nursing process thus posing a risk to effective clinical decision-making
- 130** Hidden battle beyond the battlefield: unmasking chronic pain among military personnel
- 131** Qualitative research augments quantitative analyses on caregiver burden in Parkinson's disease: expanding the horizon of predefined constructs

#### Community and primary care nursing

- 132** Self-management interventions are crucially linked to an improvement in outcomes in people with type 2 diabetes
- 133** Community nurses are uncertain about their role and responsibility in providing oral healthcare to older patients

#### Mental health

- 134** Mindfulness interventions during pregnancy reduce depressive symptoms among healthy pregnant women
- 135** Differences between nurses' and patients' perceptions regarding therapeutic relationships exist but are not fully understood
- 136** Family interventions in schizophrenia improves family's mental health

#### Nurse education

- 137** Regular evaluation of clinical learning environments can assist in bridging the gap between theoretical teaching and clinical practice
- 138** Unveiling the core focus: exploring nurse practice assessors' priorities in evaluating student mental health nurses – a qualitative content analysis

#### Nursing issues

- 139** Integrating inclusivity and skin tone diversity in nurse education materials and resources
- 140** Building partnerships for novel and ethical netnographical approaches to monitor online communities in nursing
- 141** Practical evidence-based strategies for nurse retention allow front-line leaders to meet the needs of nurses on their units

#### Child health

- 142** Role of children's hospices in supporting the implementation of perinatal palliative care and advance care planning in the UK

## October 2024 Volume 27 Issue 4

- 143** Parental involvement in mitigating procedural pain for infants using non-pharmacological approaches

- 144** Parents' decisional characteristics and preference in decision-making for their child with heart disease

#### Care of the older person

- 145** Urgent strategies are needed to alleviate loneliness in nursing homes, with attention to the experiences of residents living with cognitive and sensory impairments
- 146** The impact of retirement on cognition at the intersection of race and sex

#### Palliative care

- 147** Emotional intelligence in end-of-life simulation scenarios lack where spiritual intelligence is proven to succeed

#### Intellectual disability nursing

- 148** Family-systems interventions for families of people with an intellectual disability or who are autistic show potential, but further research is needed
- 149** Challenges and strengths in the use of photovoice with people with intellectual disabilities

#### Health promotion and public health

- 150** Navigating the landscape of blue-light filtering lenses
- 151** Biennial diabetic eye screening: unveiling ethnic and age-related disparities in delayed diagnosis

#### Women's health and midwifery

- 152** Understanding the intersectionality of birth trauma and obstetric racism for black, Latina and Asian mothers can help prevent harm and enhance respectful maternity care
- 153** Black, Asian and Minority Ethnic midwifery students' experience of a white cultural environment

### Research made simple

- 154** Using creative methods of engagement to facilitate the inclusion of children and young people with diverse needs in research

### Evidence for nurse education

- 157** Evidence for contemporary nursing education: the impact of hidden curricula on the development of identity and professionalisation in undergraduate nursing education
- 160** Student perspectives of nursing education: the importance of antiracism education in nursing curricula

### Resources

- 162** Resources page
