A list of the journals that are reviewed and the criteria for selecting articles from these journals for inclusion in Evidence-Based Nursing are included in each issue. The following articles passed all criteria but were not abstracted because, in the judgment of the editors, their findings were less widely applicable to nursing practice, the topic was of interest to only a select group of nurse specialists, or the topic was recently addressed in another abstract.

### TREATMENT

A randomized controlled study of the acute and chronic effects of cooling therapy for MS. Neurology 2003;60:1955-60.
